PROFESSIONAL SUMMARY

Bachelor of Science in Information Technology graduate with hands-on experience in full-stack web development, ERP systems, IT support, and computer troubleshooting through professional and freelance experience. Experienced in developing enterprise web applications using ASP.NET Core MVC and SQL Server, implementing frontend and backend features, business logic, and workflow enhancements. Skilled in C#, Java, Python, SQL, Windows Forms, Unity, and UI/UX design, with additional experience in PC assembly, hardware and software troubleshooting, multimedia design, and 3D modeling. Highly adaptable, detail-oriented, and committed to delivering reliable technical solutions while continuously learning new technologies.

EXPERIENCE

North Logic IT Solutions, Inc. – Full Stack Developer Intern

- Developed frontend and backend features for Kaizen ERP using ASP.NET Core MVC and SQL Server.
- Implemented validation, business logic, permissions, and workflow enhancements.
- Built dynamic UI components and optimized ERP modules through debugging and testing.
- Developed an interactive ERD Relationship Map for database visualization.

Freelance Technician (2020-Present)

- Built, upgraded, and repaired desktop computers.
- Diagnosed hardware and software issues, installed Windows, and configured drivers.
- Performed system maintenance and recommended hardware upgrades.

PROJECTS

I AM: Augmented Reality Human Anatomy Learning Application – Capstone Project

- Led the UI/UX design, creating the application's interface, user experience, and navigation flow.
- Developed highly detailed 3D anatomical models and visual assets using Blender and Adobe Photoshop.
- Assisted in developing and integrating application features using C# and Unity for an educational AR application designed for Grade 4–6 students at Starland International School.

Daily Crossword: Windows Forms Crossword Application– Mini-Capstone Project

- Led the UI/UX design of the application, creating the complete user interface, user experience, and application navigation flow.
- Assisted in developing application features and functionality using C# and Windows Forms.
- Participated in project planning, testing, debugging, and quality assurance to ensure a reliable and user-friendly application.

React Portfolio Website – Personal Project

- Developed a responsive personal portfolio website using React to showcase professional experience, technical skills, and projects.
- Designed and implemented the UI/UX, responsive navigation, hero section, and project showcase for desktop and mobile devices.

EDUCATION

STI College Caloocan

2022 - 2026

Bachelor of Science in Information Technology

TECHNICAL SKILLS

- Languages:** C#, Java, Python, JavaScript, SQL
- Web & ERP:** ASP.NET Core MVC, HTML, CSS, SQL Server, React, Windows Forms
- Tools:** Unity, Blender, Photoshop, Git, Visual Studio, SSMS, MySQL
- IT:** PC Troubleshooting, Windows Configuration, Computer Maintenance

PROFESSIONAL SKILLS

- Problem Solving
- Critical Thinking
- Quick Learner
- Team Collaboration
- Communication Skills
- Time Management
- Attention to Detail
